

Kevin Bravo

Product Engineer | B2B Systems, Data Platforms & Full-Stack Products

Email: 0bravokevin@gmail.com | Portfolio: kevinbravo.com | GitHub: github.com/0bkevin | LinkedIn: linkedin.com/in/0bkevin
Caracas, Venezuela (UTC-4) | Remote across the Americas

Professional Summary

Full-stack product engineer with 5 years of experience building complex B2B and internal platforms from scratch. Owns products from stakeholder discovery and data modeling through implementation, deployment, production support, and iteration. Built systems that replaced scattered spreadsheets with structured operational data, reporting, and intuitive workflows. Strong in TypeScript, Python, React, Next.js, SvelteKit, Django, PostgreSQL, API integrations, and end-to-end technical decision-making.

Technical Skills

Full-stack engineering: TypeScript, JavaScript, React, Next.js, SvelteKit, Astro, Node.js ecosystem, Python, Django, HTML, CSS, Tailwind CSS, server-side rendering, responsive and performant interfaces.

Data and backend: PostgreSQL, SQL, Prisma, relational data modeling, schema design, database migrations, REST APIs, request validation, multi-tenant systems, role-based access, analytics dashboards, ETL, Power BI, reporting workflows.

Delivery and product: Product discovery, stakeholder interviews, architecture decisions, rapid prototyping, feature ownership, code review, release management, production debugging, Azure, Cloudflare, Docker, GitHub Actions and CI/CD concepts, GCP concepts, logs and observability fundamentals.

Professional Experience

Proyecto Educa

Chief Technology Officer

Remote, Venezuela

Dec 2025 - Present

- **Own product and technical direction** for education platforms, translating stakeholder problems into system designs, implementation priorities, releases, quality standards, and production support.
- **Lead delivery across contributors and stakeholders**, reviewing technical decisions and keeping product scope aligned with operational needs.

Free2Z

Principal Software Engineer

Remote, Venezuela

Apr 2025 - Apr 2026

- **Led a live product migration from React to SvelteKit**, improving frontend architecture, server-side rendering, state management, maintainability, and performance without interrupting the active platform.
- **Shipped features across the full product surface** by integrating Python and Django APIs, delivering Dyte live video, and building a CMS suite with a Markdown editor and blog engine.

U.S. Department of State (via AVAA)

Product Engineer | Bilingual Talent

Remote, Venezuela

Nov 2024 - Aug 2025

- **Built a complex multi-tenant B2B platform as the sole engineer**, owning requirements, relational architecture, backend flows, candidate and employer interfaces, advisor dashboards, deployment, and maintenance.
- **Piloted the product with 50 users and 5 companies**, then converted stakeholder feedback into improved workflows, reporting, service management, and product releases.

Asociacion Venezolano Americana de Amistad (AVAA)

Software Developer

Remote, Venezuela

Oct 2022 - Jul 2024

- **Built and operated SEP**, replacing scattered Excel files with a Next.js, PostgreSQL, Prisma, and Azure platform serving about 300 scholars across 3 national chapters.
- **Built SEA for EducationUSA**, unifying student histories, services, payments, outreach, institutional relationships, and reporting in one full-stack operations product.
- **Maintained both systems in production**, resolving defects, protecting data quality, and turning staff feedback into simpler workflows and shared abstractions.

AVAA

Software Developer Intern

Caracas, Venezuela

Sep 2021 - Aug 2022

- **Created Python ETL pipelines and an interactive Power BI dashboard**, cleaning historical records and improving the reliability of recurring analytics and reporting.

Education, Leadership and Languages

IESA: Master of Public Administration, in progress. **Universidad Central de Venezuela:** Occupational Therapy, Cum Laude, 2023.

Leadership: CTO; JA Venezuela Alumni Vice President; Dev3pack Web3 and AI hackathon hub organizer; Technovation Girls code mentor. **Languages:** Spanish (Native), English (C1).
