

Kevin Bravo

Senior Frontend Engineer | React, TypeScript and Node.js

0bravokevin@gmail.com | kevinbravo.com | github.com/0bkevin | linkedin.com/in/0bkevin | Caracas, Venezuela

Professional Summary

Senior frontend and full-stack engineer with 5 years of production JavaScript experience building, deploying, and operating customer-facing web applications and internal platforms. Strong hands-on background in React, Next.js, TypeScript, modern JavaScript (ES6+), responsive UI, frontend architecture, state management, server-side rendering, REST/API integration, web performance, and Node.js/TypeScript API routes. Led a live migration from React to SvelteKit and shipped CMS, publishing, search, multilingual, live-video, and dashboard experiences. Comfortable owning performance-sensitive user-facing features, reusable frontend systems, and delivery from architecture through production support.

Core Technical Skills

Frontend: React, React.js, Next.js, SvelteKit, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, responsive and mobile-first UI, component architecture, state management, SSR, performance optimization, dashboards, search and filter experiences, CMS tooling.

Backend and APIs: Node.js web tooling, server-side TypeScript, API routes, backend-connected frontend flows, backend-for-frontend (BFF) concepts, REST APIs, Python, Django, PostgreSQL, Prisma, JSON APIs, authentication, role-based access, service integrations.

Delivery and Web3: Git, Docker, GKE/Kubernetes, Cloud Build, Azure, Cloudflare Workers, integration and regression testing, logging, health checks, deployment validation, rollback automation, Web3/DeFi concepts, EVM, smart contract security, AMMs, lending pools, flash loans.

Professional Experience

Projecto Educa Chief Technology Officer

Remote, Venezuela
Dec 2025 - Present

- **Own architecture and technical delivery** for education platforms, translating stakeholder needs into frontend and backend plans, reviewing implementation decisions, and coordinating releases and production support.

Free2Z Principal Software Engineer Open-Source Contributor

Remote
Apr 2025 - Apr 2026
Jul 2026

- **Led the production migration of a customer-facing application from React to SvelteKit**, redesigning frontend architecture and improving SSR, state management, performance, maintainability, and delivery speed.
- **Built reusable product systems** including a custom CMS, Markdown editor, publishing workflows, blog engine, search, translations, live video, and customer and administrator interfaces connected to APIs.
- **Improved production quality** through integration and regression tests, logging, health checks, deployment validation, rollback automation, Docker, Cloud Build, and Kubernetes workloads on GKE.

U.S. Department of State (via AVAA) Product Engineer | Billigua Talent

Remote, Venezuela
Nov 2024 - Aug 2025

- **Designed and built a responsive multi-tenant web product as the sole engineer**, owning interface architecture, reusable workflows, PostgreSQL modeling, role-based access, APIs, dashboards, deployment, and maintenance.
- **Validated the application with 50 users and 5 companies** and converted feedback into clearer onboarding, service-management flows, improved data quality, and more useful reporting.

Freelance Software Engineer

Remote
Sep 2024 - Dec 2024

- **Delivered responsive web products and frontend projects** across multiple sectors, covering discovery, estimation, implementation, launch, iteration, and technical support.

Asociacion Venezolano Americana de Amistad (AVAA) Junior Product Engineer

Remote
Oct 2022 - Jul 2024

Software Developer Intern

Sep 2021 - Aug 2022

- **Designed, deployed, and maintained SEP**, a responsive multi-tenant application built with Next.js, TypeScript, PostgreSQL, Prisma, Auth.js, and Azure for approximately 300 scholars across 3 chapters.
- **Built SEA for EducationUSA** with API-connected workflows for student histories, services, payments, outreach, institutional relationships, and operational reporting.
- **Supported both applications in production**, resolving UI and data issues and improving workflows based on direct feedback from the teams using them.

Education, Leadership and Languages

Instituto de Estudios Superiores de Administracion (IESA)

Caracas, Venezuela

Master of Public Administration, in progress

2025 - 2027

Universidad Central de Venezuela: Occupational Therapy, Cum Laude

2023

Leadership: JA Venezuela Alumni Vice President; Dev3pack Caracas Web3 and AI Hackathon Hub Organizer.

Languages: Spanish (Native), English (C1 - Professional Working Proficiency).
