

Kevin Bravo

Full Stack TypeScript Developer | AI Developer Tools, React & Serverless APIs

Email: ObravoKevin@gmail.com | Portfolio: <https://kevinbravo.com> | GitHub: <https://github.com/0bkevin> | LinkedIn: <https://www.linkedin.com/in/0bkevin> | Location: Remote; PST overlap available

Professional Summary

Full stack software engineer with 5 years of experience building production web platforms, internal tools, dashboards, APIs, data workflows, and developer-adjacent AI systems. Strong background in TypeScript, JavaScript, React.js, Next.js, SvelteKit, Node.js web tooling, Python, Django, PostgreSQL, SQL, SQLite, database schema design, serverless API patterns, Cloudflare Pages/Workers, and end to end product ownership.

Technical Skills

Languages and frontend: TypeScript, JavaScript, React.js, Next.js, SvelteKit, Astro, HTML, CSS, Tailwind CSS, SSR, responsive UI, performance, developer experience.

Backend, cloud, and data: Node.js web tooling, REST APIs, API routes, Hono-style routing, serverless APIs, Cloudflare Pages, Cloudflare Workers, Cloudflare Turnstile, AWS/Azure/GCP concepts, Docker, CI/CD concepts, PostgreSQL, SQL, SQLite, Supabase-compatible schema design, database design.

AI and delivery: AI coding agents, Codex, Claude, Cursor, Gemini, OpenCode, T3Code, LLM workflows, prompt iteration, code review, debugging, fast startup execution, independent ownership.

Work Experience

Proyecto Educa

Chief Technology Officer

Remote, Venezuela

Dec 2025 - Present

- **Own product and technical direction** for education platforms, translating ambiguous stakeholder needs into architecture, frontend and backend execution, automation, feature verification, release quality, and shipped software.

Free2Z

Principal Software Engineer

Remote, Venezuela

Apr 2025 - Apr 2026

- **Led a production migration from React to SvelteKit**, improving architecture, SSR, maintainability, performance, state handling, and delivery speed for a live startup product.
- **Shipped full stack product features end to end** by connecting frontend flows to Python and Django APIs, integrating Dyte live video, and building a CMS suite with a Markdown editor and blog engine.

U.S. Department of State (via AVAA)

Software Engineer | Full-Stack Developer

Remote, Venezuela

Nov 2024 - Aug 2025

- **Built Bilingua Talent as the sole engineer**, owning requirements, relational data architecture, backend-connected product flows, dashboards, reporting, quality checks, and production delivery.
- **Designed candidate profiles, advisor dashboards, service management workflows, registration flows, analytics views, and access patterns** for a production platform used by multiple centers.

Asociacion Venezolano Americana de Amistad (AVAA)

Software Developer

Remote, Venezuela

Oct 2022 - Jul 2024

- **Built SEP**, a production internal platform replacing spreadsheet operations with live scholar records, activity tracking, volunteer-hour logs, attendance workflows, reporting, and chapter visibility.
- **Engineered SEA for EducationUSA**, a full-stack advisory operations platform centralizing advisee records, outreach activities, service history, payments, receipts, and institutional alliances.
- **Built Power BI dashboards and Python data scripts** for analytics workflows, data cleanup, validation, and reporting reliability.

Projects and Proof of Work

AI-Assisted Engineering and Agent Tooling

Developer Tools

- **Use AI coding tools daily** including Codex, Claude, Cursor, Gemini, OpenCode, T3Code, and Pi for planning, debugging, implementation, refactoring, code review, model comparison, and research.
- **Build agent workflow tools** including Zrode and Brio for multi-provider coding workflows, session control, relay routing, logs, and operational visibility.

Personal Portfolio Cloudflare Workflow

TypeScript, Astro, Cloudflare

- **Implemented a TypeScript API route with Cloudflare Turnstile verification**, Cloudflare Pages/Workers environment bindings, request validation, JSON responses, and email-service integration.

Education and Leadership

IESA: Master of Public Administration, in progress. **Leadership:** Dev3pack Caracas hub organizer, JA Venezuela Alumni Vice President, Technovation Girls Venezuela code mentor. **Languages:** Spanish (Native), English (C1).
