

Kevin Bravo

Product Engineer | Developer Experience & Full-Stack Products

Email: Obravokevin@gmail.com | Portfolio: kevinbravo.com | GitHub: github.com/0bkevin | LinkedIn: linkedin.com/in/0bkevin
Caracas, Venezuela (UTC-4) | Remote across the Americas | Available for team travel

Professional Summary

Product engineer with 5 years of experience turning ambiguous user problems into shipped web products across startup, government, and nonprofit environments. Works across product thinking, interaction design, TypeScript frontends, APIs, databases, deployment, debugging, and iteration. Built products from scratch, migrated a live startup platform, and maintained systems used in daily operations. Strong fit for developer-facing work that requires clear interfaces, end-to-end ownership, fast feedback loops, and careful attention to product quality.

Technical Skills

Frontend and product experience: TypeScript, JavaScript, React, Next.js, SvelteKit, Astro, Tailwind CSS, semantic HTML, responsive interfaces, server-side rendering, state management, performance, interaction details, product design, UX writing.

Backend and platform: Node.js ecosystem, Python, Django, REST APIs, PostgreSQL, SQL, Prisma, relational modeling, request validation, JSON APIs, authentication, role-based access, Cloudflare Pages/Workers, Azure, Docker, environment configuration.

Quality and delivery: End-to-end feature ownership, product discovery, rapid prototyping, manual QA, regression checks, release management, production debugging, logs, health checks, observability fundamentals, user feedback, written documentation, code review, CI/CD concepts.

Developer tools and AI: Resend Email API, API integrations, Zrode, Brio, Codex, Claude, Cursor, Gemini, OpenCode, MCP concepts, AI-assisted research, implementation, debugging, and review.

Selected Developer and Product Work

Portfolio contact flow - TypeScript, Svelte, Astro, Cloudflare, Resend API

Built a production email flow from form validation and user-facing states through Cloudflare Turnstile verification, a TypeScript server route, environment-bound Resend API requests, JSON responses, error handling, and operational logging.

Zrode and Brio - Developer tools and observability

Build Zrode as a TypeScript workspace for multi-provider coding agents and Brio as a mobile control plane with device pairing, session control, relay routing, runtime logs, and health checks. Use both projects to test and refine the developer experience directly.

Professional Experience

Proyecto Educa

Chief Technology Officer

Remote, Venezuela

Dec 2025 - Present

- **Own product and technical direction** for education platforms, moving from stakeholder problems to product scope, system design, implementation priorities, release quality, and production support.

Free2Z

Principal Software Engineer

Remote, Venezuela

Apr 2025 - Apr 2026

- **Led a live product migration from React to SvelteKit**, improving frontend architecture, server-side rendering, state handling, maintainability, and performance without interrupting active users.
- **Shipped product experiences across the stack** by integrating Python and Django APIs, delivering Dyte live video, and building a CMS suite with a Markdown editor and blog engine.

U.S. Department of State (via AVAA)

Product Engineer | Bilingua Talent

Remote, Venezuela

Nov 2024 - Aug 2025

- **Built a multi-tenant product as the sole engineer**, owning discovery, UX, relational architecture, backend flows, frontend interfaces, dashboards, deployment, and every release.
- **Piloted the product with 50 users and 5 companies**, then converted feedback into clearer registration, service-management, advisor, and reporting workflows.

Asociacion Venezolano Americana de Amistad (AVAA)

Software Developer

Remote, Venezuela

Oct 2022 - Jul 2024

- **Built, deployed, and maintained SEP**, a Next.js, PostgreSQL, Prisma, and Azure platform serving about 300 scholars across 3 national chapters.
- **Owned the support and iteration loop**, resolving production issues, protecting data quality, and turning recurring staff questions into simpler workflows and better reporting.

Education, Leadership and Languages

IESA: Master of Public Administration, in progress.

Leadership: CTO; JA Venezuela Alumni Vice President; Dev3pack Web3 and AI hackathon hub organizer; Technovation Girls code mentor. **Languages:** Spanish (Native), English (C1).
