

Kevin Bravo

Forward-Deployed AI Engineer

0bravokevin@gmail.com | kevinbravo.com | github.com/0bkevin | linkedin.com/in/0bkevin

Professional Summary

Product engineer with 5 years of experience turning ambiguous product and operations problems into production software. Work directly with stakeholders to map workflows, scope solutions, ship working iterations, and support them in production. Build with Python, TypeScript, APIs, PostgreSQL, cloud platforms, and AI agent workflows with structured outputs, tool use, retrieval, Playwright, retries, fallbacks, and explicit failure handling.

Technical Skills

AI and agents: Python, OpenAI and Anthropic APIs, LLM tool use, structured outputs, prompt engineering, retrieval and verification pipelines, RAG concepts, eval criteria, uncertainty handling, human review, Playwright, MCP concepts.

Engineering and integrations: TypeScript, JavaScript, SQL, Node.js tooling, Django, REST APIs, webhooks, authentication, OAuth2 concepts, PostgreSQL, Prisma, Pub/Sub.

Reliability and cloud: Idempotency, retries, timeouts, fallbacks, logs, health checks, failure-path tests, Docker, GCP, Azure, Cloudflare, CI/CD, production debugging.

Work Experience

Proyecto Educa

Chief Technology Officer

Remote

Dec 2025 - Present

- **Own product and technical direction** for education platforms, turning ambiguous stakeholder needs into architecture, implementation priorities, working releases, quality standards, and production support.

Free2Z

Principal Software Engineer

Remote

Apr 2025 - Jun 2026

- **Led a live migration from React to SvelteKit and shipped integrations** across Dockerized Django services, REST APIs, PostgreSQL, Dyte live video, GKE, Cloud SQL, GCS, Pub/Sub, and Cloud Build.
- **Hardened asynchronous production workflows** with durable idempotency, verified webhooks, processing leases, explicit ACK/NACK behavior, health gates, automatic rollback, retry-safe migrations, and failure-path tests.

U.S. Department of State (via AVAA)

Product Engineer | Bilingua Talent

Remote

Nov 2024 - Oct 2025

- **Embedded as the sole engineer with an institutional client**, turning an undocumented workflow into a concrete plan and a multi-tenant product with four user roles, APIs, dashboards, reporting, and role-based access.
- **Owned the full loop from discovery through pilot support**, presenting working iterations, testing the platform with 50 users and 5 companies, and converting feedback into onboarding, service-management, data-quality, and reporting improvements.

Freelance

Software Engineer

Remote

Sep 2024 - Dec 2024

- **Delivered client web products, automation scripts, and API-connected workflows**, owning discovery, prioritization, implementation, deployment, iteration, and technical support.

Asociacion Venezolano Americana de Amistad (AVAA)

Software Developer

Remote

Sep 2022 - Jul 2024

Software Developer Intern

Sep 2021 - Aug 2022

- **Built, deployed, and supported two internal platforms** for approximately 300 scholars, advisors, and staff, replacing spreadsheet-heavy workflows with PostgreSQL-backed records, services, payments, attendance, and reporting.
- **Worked directly with non-technical operators** on issue reports, data cleanup, workflow changes, user support, and Python scripts for analytics and validation.

Selected AI and Developer Tooling Projects

Research and Incident Verification Agent

Python, Playwright, LLM APIs

Built an agent pipeline that searches and renders candidate sources, judges incident-specific evidence, and writes structured records and debug reports. Added candidate scoring, rejection reasons, uncertainty labels, caching, retries, timeouts, browser and social-source fallbacks, and model escalation.

Zrode and Brio

AI Agents, Developer Tooling

Build and use an agentic development environment and control plane for multi-provider coding workflows, session control, relay routing, runtime logs, health checks, and operational visibility.

Open Source and Leadership

Zed: Open-source contributor to the Zed code editor. **JA Venezuela Alumni:** Vice President, Mar 2026 - Present.

Dev3pack: Global Web3 and AI hackathon hub organizer, Apr 2026 - May 2026.

Education and Languages

Instituto de Estudios Superiores de Administracion (IESA)

2025 - 2027

Master of Public Administration, in progress. **Languages:** Spanish (Native), English (C1 professional proficiency).
