

Kevin Bravo

Senior Software Engineer | Cloud Platforms, TypeScript and AI

0bravokevin@gmail.com | kevinbravo.com | github.com/0bkevin | linkedin.com/in/0bkevin

Professional Summary

Backend and platform-oriented software engineer with 5 years of experience designing, shipping, and operating production systems. Built TypeScript and Node.js products as well as Python and Django REST APIs backed by PostgreSQL. Recent Free2Z work addressed failure cases in balance-changing and asynchronous workflows through atomic transactions, durable idempotency, Pub/Sub redelivery, webhook verification, deployment health gates, automatic rollback, and concurrency tests. Currently CTO at Proyecto Educa, responsible for architecture, delivery standards, and production support, with cloud delivery experience across GCP, Azure, Docker, and Kubernetes/GKE. I also build AI agent infrastructure with LLM APIs, tool routing, session control, logs, and health checks.

Work Experience

Proyecto Educa

Chief Technology Officer

Remote, Venezuela

Dec 2025 - Present

- **Own architecture and technical priorities** for education platforms, translating ambiguous operating requirements into implementation plans, release standards, production support, and shipped software.

Free2Z

Remote, Venezuela

Principal Software Engineer

Apr 2025 - Apr 2026

Open-Source Contributor

Jul 2026

- **Led a live migration inside a production GCP platform** using Dockerized Django and SvelteKit services on GKE, Cloud SQL, GCS, Pub/Sub, Artifact Registry, Cloud Build, and Workload Identity.
- **Hardened asynchronous and balance-changing workflows** with durable idempotency, atomic balance and audit effects, publish-after-commit logic, explicit ACK/NACK behavior, verified webhook signatures, processing leases, and failure-path tests.
- **Strengthened rollout and recovery** with a Cloud Build worker health gate, automatic rollback, a retry-safe concurrent PostgreSQL migration, real-database concurrency tests, logging, and production debugging.

U.S. Department of State (via AVAA)

Remote, Venezuela

Product Engineer | Bilingua Talent

Nov 2024 - Aug 2025

- **Built and operated a multi-tenant B2B platform as the sole engineer**, owning requirements, PostgreSQL architecture, role-based authorization, backend workflows, deployment, production releases, and support.
- **Piloted the system with 50 users and 5 companies**, turning operational feedback into simpler workflows, better data quality, and more reliable reporting.

Asociacion Venezolano Americana de Amistad (AVAA)

Remote

Junior Product Engineer

Oct 2022 - Jul 2024

Software Developer Intern

Sep 2021 - Aug 2022

- **Designed, deployed, and maintained SEP**, a Next.js, PostgreSQL, Prisma, Auth.js, and Azure platform serving approximately 300 scholars across 3 chapters.
- **Built SEA for EducationUSA** and Python ETL workflows for advisee histories, services, payments, receipts, outreach, institutional relationships, reporting, and data validation.

Volunteer Experience

AVAA | Education Committee Member

Sep 2024 - Present

Serve as primary administrator of SEP, keeping attendance, volunteer-hour, and reporting workflows running for approximately 300 scholars across 3 chapters; advise on requirements, data quality, and technical feasibility.

JA Venezuela Alumni | Vice President

Mar 2026 - Present

Set strategy with the board and lead internal operations, committee coordination, partnerships, and member onboarding for the national alumni network.

Dev3pack | Global Hackathon Hub Organizer

Apr 2026 - May 2026

Owned the Caracas hub's operations and mentored teams on product scope, technical decisions, final submissions, and pitches for a global Web3 and AI hackathon.

Education and Languages

Instituto de Estudios Superiores de Administracion (IESA)

Caracas, Venezuela

Master of Public Administration, in progress

2025 - 2027

Languages: Spanish (Native), English (C1 - Professional Working Proficiency).
