Professional Summary

Full-stack software engineer with 5 years of experience designing, shipping, and operating production systems. Built TypeScript and JavaScript products with React, Astro, Next.js, SvelteKit, Node.js web tooling, Prisma, and PostgreSQL, as well as Python and Django REST APIs. Own features from relational schema design and backend logic through responsive interfaces, deployment, monitoring, and production debugging. Recent work includes Dockerized cloud services, asynchronous workflows, idempotency, verified webhooks, health gates, rollback automation, and daily AI-assisted engineering.

Work Experience

Projecto Educa

Chief Technology Officer

Remote

Dec 2025 - Present

- **Own architecture and technical priorities** for education platforms, lead hands-on delivery, review system decisions, and remain accountable for release quality, deployment, and production support.

Free2Z

Remote

Principal Software Engineer

Apr 2025 - Jun 2026

- **Led a live migration from React to SvelteKit** within a production GCP platform using Dockerized Django and SvelteKit services on GKE, Cloud SQL, GCS, Pub/Sub, Artifact Registry, Cloud Build, and Workload Identity.
- **Shipped full-stack product features** across frontend workflows, Django REST APIs, PostgreSQL data, live video integrations, Markdown editing, CMS tooling, publishing, and search.
- **Hardened asynchronous workflows and production rollouts** with durable idempotency, atomic balance and audit effects, verified webhooks, processing leases, explicit ACK/NACK behavior, worker health gates, automatic rollback, retry-safe PostgreSQL migrations, and failure-path tests.

U.S. Department of State (via AVAA)

Remote

Product Engineer | Bilingua Talent

Nov 2024 - Oct 2025

- **Built and operated a multi-tenant B2B platform as the sole engineer**, owning requirements, PostgreSQL data architecture, role-based authorization, backend workflows, dashboards, deployment, production releases, and support; piloted it with 50 users and 5 companies.

Freelance

Remote

Software Engineer

Sep 2024 - Dec 2024

- **Delivered Astro and TypeScript web products** with responsive interfaces, forms, API-connected workflows, performance improvements, and production deployments across multiple client projects.
